

Mulalley

Mulalley is a family owned local company based in nearby Woodford Green. We will build all of the new homes. In partnership with One Housing, our sister company Sherrygreen Homes will market and sell the new homes for sale.

Mulalley is a multi-award winning construction company, which has been working on occupied estates, similar to New Granville for over 40 years.

We are one of the founder partners of the Considerate Construction Scheme, established to ensure that builders are considerate and good neighbours, as well as clean, respectful, safe environmentally conscious, responsible and accountable.

To date, we have won over 90 Considerate Constructor Awards and continue to work to exceptionally high standards.
